# Software Engineer

**Locations: Norwalk, New York, Austin, Boston, Chicago, San Francisco**
**Department: Software Engineering**

FactSet Software Engineers are self-motivated, articulate, highly-skilled professionals. They design and implement applications, databases, and systems, having responsibility for all phases of development. They work closely with other departments to ensure that FactSet's products and technologies are extremely responsive to the changing needs of the investment community. Our hands-off management style encourages developers to take initiative to complete projects, manage multiple tasks, and set their own day-to-day priorities. Following training, the Software Engineer has immediate opportunities for creative software development. Whether it's enhancing existing systems or creating groundbreaking new facets to the service, FactSet engineers continually contribute to the success of the company.

Engineering opportunities exist in the Norwalk, CT; New York, NY; Austin, TX; Boston, MA; San Francisco, CA and Chicago, IL offices.  To find out more about the opportunities FactSet has to offer you, please visit us at http://www.factset.com/careers.
